

## If you want it

She flies away from home  
And she says  
Yes I want it

She smiles, smiles and lies again  
Desire's never quiet  
Yes she wants it

But when she wants it  
She'll have it  
And when she got it  
She must love it

Chorus

Never let it go  
Gotta keep the flow  
Make it better, to a bonzer

There's no other way  
This is what I say  
Coz desire's never to stay

When you want it  
You must have it

On the road many a man she met  
Who never complained  
Coz a making they were

She says, I'll never comprehend  
But I might understand  
What's needed

And when she'll get it  
She'll have to love it  
And once she loves it  
She'll have to keep it

Chorus

Never let it go  
Gotta keep the flow  
Make it better, to a bonzer

There's no other way  
This is what I say  
Coz desire's never to stay

When you want it  
You must have it

For a while she'll lie lie and lie  
Just for a while it ain't and she smiles

If you don't want it  
Just don't take it  
And if you take it  
You won't forget it
