

Hello

Bab' I wanna make it slow
I wanna take the time babe coz
Slowly things slide and go
Ride the river flow

Looking for our way back
We've loosed a lot of time baby
Searching for another track
Ride the bottom line

You know baby how I feel
When you do make it real
When you wanna make it real

Hello hello
Hello we're gonna make it right
We're gonna make it slow
Cause all I want for shure
Is just to make you feel like a wallowing sow

Hello so slow we're making'it slide
Easier than we've never known
Hurry we must get the tide
Before all's getting blown

You know baby how I feel
When you do make it real
When you wanna make it real

Hello hello
Hello we're gonna make it right
We're gonna make it slow
Cause all I want for shure
Is just to make you feel like a wallowing sow

Hello hello
Hello we're gonna make it right
We're gonna make it slow
Cause all I want for shure
Is just to make you feel like a wallowing sow

Hello we're gonna make it right
We're gonna make it slow
Easier than we've never known
