

The pinky porky Queen

1er verse

My choice, don't want the blues
I want a funky pinky lovely sunny snooze
I got to make it right, if all the night
I want to chase about the funky queen all night

Bridge

The pinky porky queen of funky came to me with her painted lips silly
And she told me I like chili I like music and big Bootsy
She don't look back, pull down my pants to visit my Big Lebowski
Then she told me you've got a lovely thingy, king of mother funky

Chorus

I've never seen another girl
With all this funky sparkle in her eyes
I've never met another one alike
Who never loses her precious time

I never want to lose that sexy girl
I never want to miss her dirty trickies
I've never met another one alike
Who never loses her precious time

2er verse

A day, another day
Another funky sexy lady's on my way
I don't look back, refuse the night
If I want to chase about the funky queen all night

3eme verse

I lost, my funky shoes
It's maybe Bootsy who nicked my pinky boots
I got to find them now, if all the night
I want to chase about the funky queen all night
