

Like the star

1er verse

Heavy breath, slave fatigue
Is nothing as it seems
But I take the time to go once, once around oh oh oh
At this moment I don't know
Of all the words you said before
They 're some lies I will never let pass away

Chorus

Like the star was in my dream
They made it shine when I was seventeen
Like the star haunting my dream, baby
Like the star lighting my dream
They lied to me then all came down on me
Like the star was in my dream, baby

2eme verse

All the promises you made and aped
It is nonsense to your escape
But I take the time to understand
You crazy beauty, you dirty slave
Your conversation's a killer lady
Here come new rules they are for my sake ok !?!

Chorus

Like the star was in my dream
They made it shine when I was seventeen
Like the star haunting my dream, baby
Like the star lighting my dream
They lied to me then all came down on me
Like the star was in my dream, baby

Bridge

I'm on my own once again it's ok
My aspirations become true once again
Your void will remain
